

Welcome to Java!

Problem Statement

Welcome to the world of Java! This is your first step to learn this wonderful language. Print "Hello World." and "Hello Java." in the console to complete this challenge.

(You should write a main function inside a public class called *Solution*; otherwise, your code will not compile.)

Input Format

There is no input for this problem.

Output Format

Output the two sentences in separate lines. See sample output.

Sample Input

There is no input for this problem.

Sample Output

Hello World.

Hello Java.
